

Benjamin Hekimian

Front-End React Developer

+963 962 213 900 | benjamin.d.hekimian@gmail.com | benjamin-hekimian.github.io | Aleppo, Syria

Profile

Front-end developer with a strong foundation in **React**, **Bootstrap**, and **Tailwind CSS**, specializing in building **responsive** and user-friendly websites. Earned **Meta's Front-End Developer Certificate** and **Vanderbilt's Prompt Engineering Specialization**. Developed projects like **Little Lemon** and a dynamic code quotes generator, focusing on seamless user experiences. Passionate about problem-solving, adaptability, and continuously expanding my skill set, with plans to learn **backend development** soon.

Education

University of Aleppo

Sep 2022 - Present

Bachelor of Information Technology – Software Engineering

Experience

❖ Little Lemon - Responsive Restaurant Website

Feb 2025 – Mar 2025

Built a responsive table reservation website with features like a dynamic menu and online reservation system.

- Implemented **React Hooks** (useState, useReducer, useNavigate) for state management and navigation.
- Optimized performance using **React Suspense** and **lazy loading** for components and images.
- Applied **form validation** and error handling to ensure a smooth reservation process.
- Designed a clean layout with **react-router-dom** for efficient routing and navigation.

❖ Code Quotes - Motivational Wallpaper Generator

Dec 2024 – Jan 2025

Created a web app that generates random code-quote wallpapers, allowing users to upload images, overlay quotes, and download the images.

- Implemented **React** for state management and dynamic updates of quotes and images.
- Styled the app using **Tailwind CSS** for a modern, responsive design.
- Used **HTML5 Canvas** to overlay text on images, ensuring readability.
- Deployed the app on **Vercel** with version control via **Git & GitHub**.
