

# Benjamin Hekimian

Front-End React Developer

+963 962 213 900 | [benjamin.d.hekimian@gmail.com](mailto:benjamin.d.hekimian@gmail.com) | [benjamin-hekimian.github.io](https://github.com/benjamin-hekimian) | Aleppo, Syria

## Profile

Front-end developer with a strong foundation in **React**, **Bootstrap**, and **Tailwind CSS**, specializing in building **responsive** and user-friendly websites. Earned **Meta's Front-End Developer Certificate** and **Vanderbilt's Prompt Engineering Specialization**. Developed projects like **Little Lemon** and a dynamic code quotes generator, focusing on seamless user experiences. Passionate about problem-solving, adaptability, and continuously expanding my skill set, with plans to learn **backend development** soon.

## Education

University of Aleppo

Bachelor of Information Technology – Software Engineering

## Experience

❖ **Paradise Nursery - Interactive Plant E-commerce Platform** Mar 2025 – Apr 2025

Developed a responsive single-page application for a fictional plant nursery, enabling users to browse and manage a shopping cart for various indoor plants.

- Built with **React** and **Redux Toolkit** for efficient state management and component-based architecture.
- Implemented dynamic **shopping cart** with real-time updates for item quantities and total pricing.
- Designed a responsive layout using **Flexbox** and **CSS Grid**, ensuring compatibility across devices.
- Utilized **React Router DOM** for seamless client-side routing between pages.

❖ **Little Lemon - Responsive Restaurant Website** Feb 2025 – Mar 2025

Built a responsive table reservation website with features like a dynamic menu and online reservation system.

- Implemented **React Hooks** (useState, useReducer, useNavigate) for state management and navigation.
- Optimized performance using **React Suspense** and **lazy loading** for components and images.
- Applied **form validation** and error handling to ensure a smooth reservation process.
- Designed a clean layout with **react-router-dom** for efficient routing and navigation.
